WORKS
Portfolio

Amitoz Deol's portfolio website features a dark blue background with a blurred image of a beach at sunset. At the top right is a navigation bar with links for About, Experience, Education, Projects, Skills, and Contact. A sun/moon toggle switch is also present. The main title "AMITOZ DEOL" is displayed in large white letters, followed by "Web Developer". Below the title is a "Download Resume(PDF)" button. A circular profile picture of Amitoz is shown at the bottom left. The bottom right contains a bio text block.

Hello, I am Amitoz Deol, **designer and full-stack developer** working to create the best websites with modern technologies like Typescript and the fundamentals of usability. I'm located in New York where I work as a Web/App Developer Lead for some great clients over at Kognito in Manhattan. Despite acquiring considerable knowledge in my development time, I do not rest on my laurels and constantly try to develop, which allows me to write better code and create more advance projects.

CONTACT PAGE

A wireframe of a mobile phone screen. At the top, there's a navigation bar with three horizontal lines and the text "rd.". Below this is a header with the text "Get in touch with me". There are four input fields: "First Name", "Last Name", "Email Address", and "Message" (with a text area). At the bottom is a "Submit" button.

A wireframe of a tablet screen. At the top, there's a header with the text "A Web Page" and a URL bar with "https://". Below this is a header with the text "Get in touch with me". There are four input fields: "First Name", "Last Name", "Email Address", and "Message" (with a text area). At the bottom is a "Submit" button.

A wireframe of a desktop browser window titled "A Web Page". The address bar shows "https://". The header includes a navigation bar with "HOME", "ABOUT", "PROJECTS", "BLOG", and "CONTACT" (all underlined), followed by the text "Get in touch with me". Below this is a form with four input fields: "First Name", "Last Name", "Email Address", and "Message" (with a text area). At the bottom is a "Submit" button. At the very bottom of the page is a copyright notice: "(C) Copyright Raymond Doan 2020".

COLOUR DESIGN

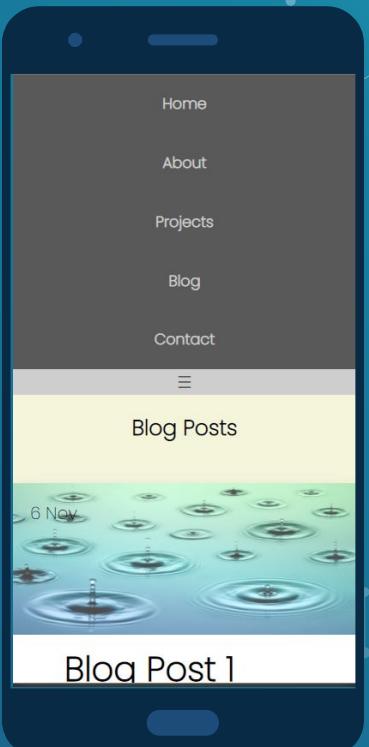

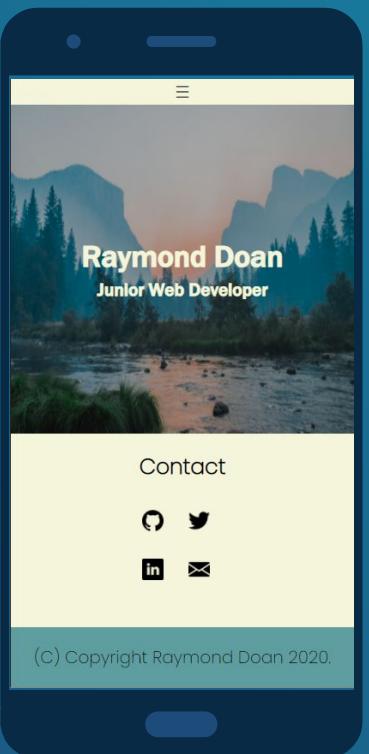

- ◆ PRIMARY COLOUR: BEIGE
 - ◆ CALMNESS, SIMPLICITY
- ◆ SECONDARY COLOUR: DARK GREY
 - ◆ RELIABILITY, Maturity

ADDITIONAL COLOURS WERE USED FOR COLOUR CONTRASTING

COLOUR DESIGN

3

USER EXPERIENCE (UX)

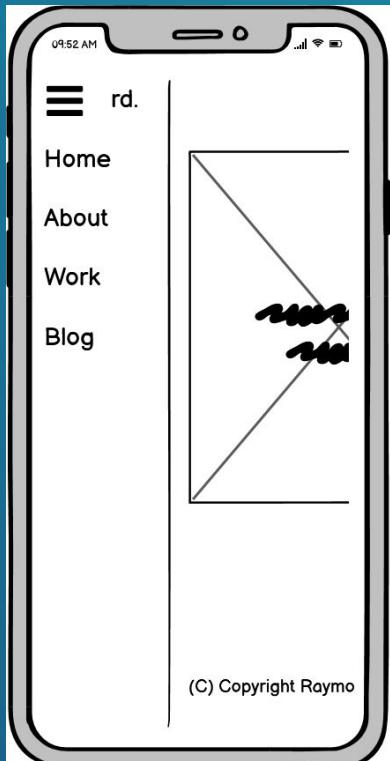

COMPONENTS AND STYLING ENGAGEMENT

HAMBURGER MENU

Used in `<header>`:

- ◆ `<navbar>`
 - ◆ `<input type=checkbox>` to action the checkbox
 - ◆ `<label>` for labelling the checkbox
 - ◆ `` for the list of the links on the navbar
 - ◆ `` for the hamburger look

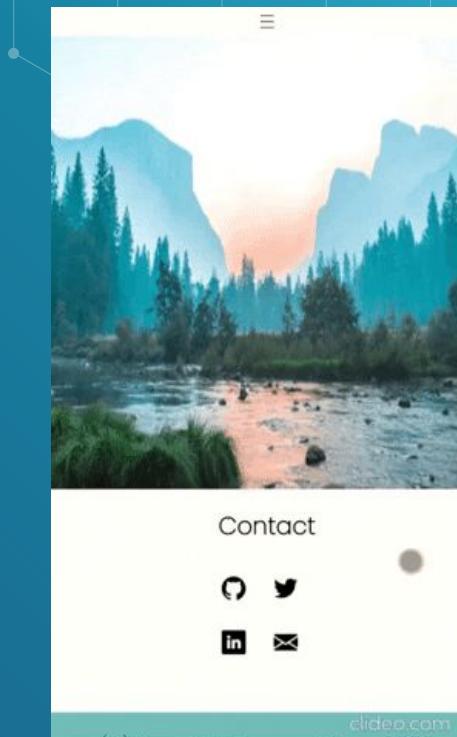

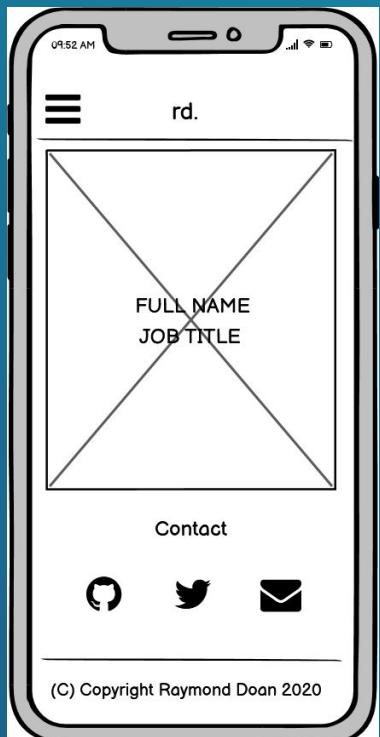

HOVER OVERLAY

Used in `<main>`:

- ◆ `<content-wrapper>`
 - ◆ `` for the background image
 - ◆ `<text-wrapper>`: div containing:
 - ◆ `<name>`
 - ◆ `<job title>`

Using CSS:

`<content-wrapper>` -
`position: relative`
`<text-wrapper>` -
`position: absolute`

FLEX-WRAP

clideo.com

OTHER FUNCTIONALITY & FEATURES

HOVER BLOG POSTS

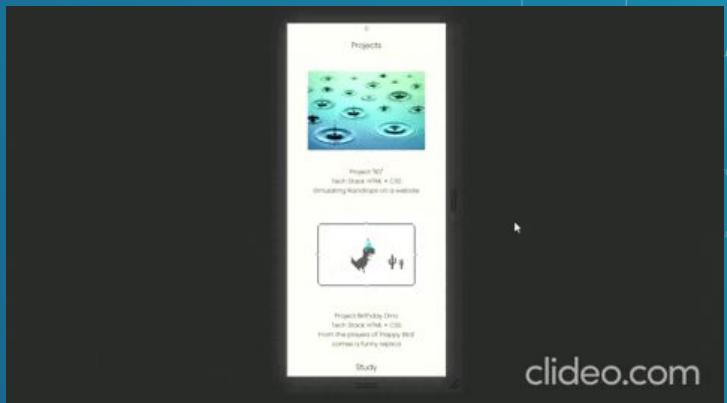

Image in Blog Post enlarged when the cursor hovers over the whole container of the blog card.

- ◇ This was done using the '*hover*' and '*overflow: hidden*' styling

FLEX-WRAP & ALTERNATE ORDER

From column format of image > text > image > text, enlarging to desktop format reverses the order of contents to image > text > text > image

DEVELOPMENT REVIEW

CHALLENGES, FAVOURITE PARTS AND ETHICS

Challenges

- ❖ Designing the hamburger menu - changing from sidebar to overlay to dropdown menu
- ❖ Git Terminal to push and pull when different parts of the repo were created
- ❖ @media queries to modify website to make the web styling a responsive design

Fav Parts

- ❖ Finally being able to design the hamburger menu with a navbar toggle in mobile dimensions
- ❖ Overlaying the navbar on top of my images in full desktop screen
- ❖ Deploying the website to netlify to automatically pick up changes from my GitHub repo

Coding Ethics

- ❖ Copyrighting images and content from other creators (especially with images and icons)
- ❖ Accepting full responsibility of my work - no one else is going to design my portfolio website except myself
- ❖ Rigorous testing and debugging of the website when staging and after deployment

THANKS!
